

Website Report

The new website for Compton Parish Council has been in operation for approximately 6 months.

During that time it has had 500 hits from 300 people. This is not a high number but without up-to-date news, the site is primarily for reporting meetings and cemetery information, both of which have a limited audience.

Site visitors are largely from Guildford, Godalming, Farnborough and London but there are hits from many other parts of the UK and the world.

Most use Google search engine to find the site but approx. 1/3 use the URL

Most people visit the site to;

- a) Get contact details
- b) View meeting dates/ agendas/minutes
- c) Get Councillor information
- d) Get cemetery / burial information
- e) Find out about projects/news
- f) Archives

Recommendations

Email

A Compton Parish Council email address has been set up for Joanna. Once confirmation has been received that Joanna has set this up at her end Joanna's personal email address on the website can be replaced with the new one. There is a monthly hosting fee of £6 to link the email to the domain per person payable to Wix (site hosting the website). Fiona has covered this cost and will add it to the end of year bill.
